

# 15 Years of Service for Flotec Employee

February 10, 2022

Loughborough-based **Flotec**, a leading supplier of hydraulic, pneumatic and pipeline products to industry, is celebrating 15 years of service for Sam Green.

This month marks 15 years at the SME for the operations director.

Reflecting on joining the business in 2007, Sam said: "I remember talking to a friend who was working for Flotec at the time, and he mentioned that the company may present a really good opportunity for me.

"I hadn't considered working in manufacturing or engineering but was intrigued and fascinated by the idea and so, in 2007 I joined Flotec as an apprentice.

"When I reflect over the past fifteen years, there really isn't anything I haven't done!

"Flotec has seen me working in production, delivery driving, picking, packing, sales and purchasing.

"Over time, I naturally gravitated towards account management and sales where I now oversee the internal sales and purchasing team as well as company-wide operations."

**Flotec** was established in 1995 and became an employee-owned trust during the first quarter of 2021.

Sam said: “I believe that Flotec becoming an employee-owned trust is incredibly important as it gives every member of the team a feeling of belonging, ownership and accountability which is vital for the on-going success of the business.”

Sam’s efforts haven’t gone unnoticed, with Managing Director Julian Davies leading the praise: “I want to thank Sam for his hard work, commitment and loyalty over the past 15 years. It has been wonderful to see him mature, develop, progress, and grow within the company.

“I look forward to witnessing his future efforts and endeavours.”
