

Bostonair Group changes track with expansion into the rail sector

April 3, 2020

WHY BOSTON RAIL?

- Access to highly technically skilled personnel looking for work i.e. aircraft engineers, wind turbine technicians and candidates with mechanical or electrical backgrounds
- Significant access to ex-forces personnel who have experience in areas such as: Telecommunications, Engineering, Electronics and Vehicle Maintenance
- Investment in personnel we provide including; NTAR training courses, PTS Training, PTS Medical, Drugs & Alcohol tests and other rail courses
- Upskilling and cross skilling candidates successfully in other sectors such as aviation and wind energy
- Supporting new personnel to the industry with Sentinel applications
- Current customer base in other sectors include; Siemens Gamesa, MHI Vestas, DHL and Lufthansa
- Boston Rail will directly employ candidates we provide eradicating the need for you to provide payroll and other admin support
- Offer Contract, Permanent and Exec-Search manpower solutions

We understand the increasing need for highly skilled technical personnel in the rail sector so if you are looking for an innovative approach to your manpower needs in the rail sector contact Tom Anderton at
