

British Steel to promote local rail partnership at EXPO Ferroviaria 2019

August 30, 2019

British Steel will be exhibiting at EXPO Ferroviaria 2019 at Rho Fiera, Milan, Italy from 1-3 October.

Taking place every 2 years, EXPO Ferroviaria, is Italy's showcase for railway technology, products and systems.

We will be positioned on Stand A48 where we'll be demonstrating how we can help fulfil the needs of the Italian rail industry through our range of premium rail products coupled with the best logistical solutions. Topics being covered will include:

Logistical excellence – our local partnership in Lecco allows us to deliver just-in-time to rail networks right across Italy

SF range – our 'stress-free' rail has excellent wear-resistance and uniquely low residual stress for reduced foot fatigue

ML range – our premium wear-resistant grooved rail is weld-restorable in track for multiple rail lives

Zinoco® – our coated rail offers the most durable solution available to combat corrosion in aggressive environments

For more information on EXPO Ferroviaria, or to arrange a meeting with the team, please contact rail@britishsteel.co.uk
