

# Career opportunities at Direct Rail Services

December 22, 2022

**Direct Rail Services (DRS)**, a part of Nuclear Transport Solutions (NTS), the leading global provider of safe, secure, and reliable nuclear transport is undergoing a major modernisation programme.

Significant investment is being made to ensure that processes and technology enable the business to continue to deliver innovative rail solutions for their nuclear and non-nuclear customers.

A spokesperson for DRS commented: "We are committed to the culture of our business and ensuring we create great places to work, we want people to feel able to share their ideas, and to be supported, trusted, valued and respected. Our three business principles of Freedom, Helpfulness and Drive are part of everything we do.

"Our drive to create a more inclusive work culture means we require a diverse range of specialist skills and expertise, so treating everyone equally, with respect and creating an environment where differences are encouraged, isn't just the right thing to do, it's essential for our mission. Our employees have access to various employee-led networks that help deliver change in all areas of diversity and inclusion, such as gender, LGBTQ+, disability and race.

"We pride ourselves on being a modern and inclusive employer where people are proud to work and feel

respected and able to perform at their best. So, get your career on the right track and apply for one of our amazing opportunities today.”

Anyone who is interested in joining DRS is encouraged to look at the latest jobs advertised at [RBD Rail Recruiter](#) or to visit the [DRS recruitment page](#).
