

# Get your recruitment on the right track

January 12, 2023

Rail sector job board **RBD Rail Recruiter** is now approaching its tenth month – and following a hectic 2022, the new year shows no signs of a slowdown, with new recruiters sharing a wide range of fresh jobs on the platform.

The team also launched sister job board FM recruiter in late 2022, and it has been full steam ahead on both platforms ever since. FM Recruiter is already advertising more than 10,000 jobs from across the facilities management sector and has a growing number of candidate registrations.

Managing director Dean Bruce said: “We had expected the job boards to be relatively quiet over the Christmas period, but this was not the case. Apart from Christmas Day and Boxing Day, we continued to see good candidate numbers throughout the festive period and since we have returned to work in the new year, we have seen significant numbers of new jobs being posted.

“Our recruiter numbers continue to increase, too, and we have more than 30 recruiters currently active on RBD Rail Recruiter. They are offering a huge range of rail opportunities from construction jobs to project management jobs and from track work roles to engineering jobs. We are also seeing opportunities for IT professionals, commercial specialists and sales professionals in rail businesses. This is why we recently added a new IT segment to the platform.

“The rail jobs market continues to be difficult for many employers; candidate numbers are still low in comparison to the number of jobs available for certain positions. This is why RBD Rail Recruiter continues to work closely with railbusinessdaily.com to extend the reach of our clients’ jobs beyond the platform itself. This unique proposition clearly differentiates us from other job board providers, which is necessary in the current market.”

2023 has also seen the launch of a special offer from facilities management job board FM recruiter. For the month of January, recruiters can purchase 60 standard 30-day job credits for just £900., These credits can be used any time up until the end of June 2023.

Dean Bruce said: “Following the huge success of RBD Rail Recruiter, we are keen to grow the FM sector via our new job board FM recruiter. Our aspiration is to become the go-to place for all FM jobs and job seekers and to make this possible we need to make the platform accessible to as many people as possible.

“Although the January offer represents a huge discount, we want as many recruiters as possible to try out the platform and to see how it can find help to deliver talent for their business.”

Any organisations operating in either the rail sector, the FM sector or both can speak to the team about their recruitment needs by contacting [Louise@rbdrailrecruiter.com](mailto:Louise@rbdrailrecruiter.com) or by calling Louise on 01924 667939.
