

## Health & Safety Excellence Earns RoSPA Recognition for Dyer & Butler Rail Team

September 8, 2021

Dyer & Butler, a part of M Group Services, has received an internationally-recognised RoSPA President's Award (10 consecutive Gold Awards) in recognition of its health and safety values, practice and performance in the rail sector.

Organisations receiving a RoSPA Award are recognised as being world-leaders in health and safety practice. Every year, nearly 2,000 entrants vie to achieve the highest possible accolade in what is the UK's longest-running health & safety industry awards.

Steve Broom, Safety, Sustainability & Training Director, Dyer & Butler, commented: "As the past year has shown, maintaining exemplary levels of health and safety within the workplace is just as important for the individual as it is to the company and a culture of excellence can be reached when the right balance is achieved.

This recognition from RoSPA bears testament to the hard work and dedication of our people to reduce workplace hazards and accidents and, by doing so, continuing to be safe by choice, not by chance."

Chris Darlow, Rail Director, Dyer & Butler, commented: “We are delighted to receive this prestigious recognition from RoSPA, particularly in the context of the unprecedented challenges faced by our organisation and the wider rail sector over the pandemic period.

“We are committed to ensuring that every person who works for us, or who comes into contact with our work, returns home safely, without incident or accident occurring. We are extremely proud of our safety performance and, moving forward, our priority is to continue to drive and deliver outstanding safety values, practices and performance across our operations in safety-critical rail environments.”

Julia Small, RoSPA Achievements Director, added: “The RoSPA Awards scheme is the longest-running of its kind in the UK, making it one of the most sought-after achievement awards for health and safety worldwide.

“RoSPA is very proud of the achievements of its entrants, and with this award we recognise the best of the best, an organisation that has gone the extra mile for the delivery of safety in the workplace.

“Our RoSPA Award winners are central to achieving this goal, driving up standards and setting new safety benchmarks for organisations across the world.”

RoSPA has also recognised Dyer & Butler for its health and safety performance in the aviation and Safe by choice, not by chance highways sectors. The RoSPA Order of Distinction was awarded to the Dyer & Butler Aviation Team in association with clients, Heathrow Airport Ltd and Gatwick Airport Ltd (a sixteenth consecutive Gold Award in both cases), and the Dyer & Butler Highways Team achieved its first RoSPA Gold Award.

In addition, an overall Order of Distinction was awarded to Dyer & Butler Ltd.
