

HUBER+SUHNER and Stadler agree new three-year partnership for supply of RADOX® railway cables

September 2, 2020

HUBER+SUHNER has been chosen as a preferred supplier of railway cables to Stadler as both companies extend their collaboration with a new agreement for a further three years until 2023.

Known for its high-performing and customisable rail cable portfolio, HUBER+SUHNER will supply an important part of Stadler's global cable demand as part of a new Global Price Agreement (GPA). This is the latest milestone in the two companies' collaboration which spans for more than 20 years.

Under the agreement, HUBER+SUHNER will provide Stadler with RADOX railway cables, for the power, control, and communication connectivity across all its vehicle platforms, including electric commuter trains, electric high-speed trains, metro, light rail vehicles and tailor-made vehicles.

The new agreement will ensure that Stadler have a high-quality, comprehensive product portfolio of cables available to meet its performance-driven needs as leader in the rail market.

Damiano Freda, Global Lead Buyer for Wires and Cables at Stadler, said: “We are very happy to select HUBER+SUHNER as our preferred cable partner for a further three years. The reputation of HUBER+SUHNER within Stadler has been enhanced through the technical strength and quality of its products which is combined with excellent delivery performance.”

Reto Jaeck, Market Segment Manager Railway DACH at HUBER+SUHNER, said: “We are pleased to continue collaborating with Stadler as the supplier of choice for wire and cable products and to provide a service which supports the performance potential of this company now and in the future.”
