

Last chance for early bird tickets to Railway Industry Association's 14th Innovation Conference

December 15, 2023

Railway Industry Association's (RIA) 14th Innovation Conference, its flagship event in the Unlocking Innovation programme, is now open for registrations, bringing together inspirational leaders, pioneering engineers, ambitious entrepreneurs and passionate railway professionals.

The deadline for the early bird tickets is December 31st. [Click here for tickets.](#)

It takes place on 26-27 March at the ICC Wales, offering the opportunity for people to share their innovations, be inspired by technological and research advancement and engage with clients and suppliers. The theme is 'Inspired by Innovating'.

The Conference will feature leading speakers; two days of interactive workshops, keynotes and panel discussions; the opportunity for dozens of exhibitors, the presence of Network Rail's Research, Development and Innovation teams, as well as an evening network programme.

The event was named Best Longstanding Association Event (up to 800 attendees) at this year's Association Excellence Awards.

RIA Senior Marketing & Events Manager, Grace Smithen, said: "For RIA Innovation Conference 2024, we are continuing to challenge ourselves on how to deliver a stand-out event for our members and partners.

"2024's event will combine an opportunity for you to share your innovations, be inspired by technological and research advancements happening in the UK and around the world, engage with clients and suppliers to overcome barriers that cannot be overcome via email or Teams, and, most importantly, have fun while doing it."

The event was named Best Longstanding Association Event (up to 800 attendees) at this year's Association Excellence Awards.
