

Registration open for Major Rail Networking Event

June 29, 2021

It is full steam ahead for **Rolling Stock Networking** (RSN), which returns this year on September 30 at the Derby Velodrome.

More than 140 exhibitors have already signed up, including new train builders, tier 1 suppliers, maintainers, technical equipment suppliers, designer integrators and railway products companies.

Visitor registration, which is FREE, is now open for the event which this year will include a Meet the Buyer event, organised by the Railway Industry Association.

Kevin Lane, from the RSN management team, told RBD: “The countdown is on for Rolling Stock Networking and we’re all very excited. The event will be one of the earliest opportunities to re-kindle contacts, meet with industry colleagues promote your company and seek new opportunities.

“As well as the RailBusinessDaily Conference, seminars and huge showcase with our 140 stands, we are also delighted this year to be launching a Meet the Buyer event. The strength and position of the Railway Industry Association will enable the railway supply chain to meet many key people with spending power at the event. The application process will be shown on our website in due course.”

RSN is a full scale, full day, international, indoor rail show focussed specifically on passenger and freight rolling stock, technical enhancements, depot equipment, ancillary services and the rail supply chain.

Business Daily Group Chief Executive David McLoughlin said: “As the UK looks to build back better from the pandemic RSN is a superb networking platform offering access to customers and suppliers regardless of size or market position.

“We can’t wait to see you all at the Derby Velodrome on September 30.”
