

# SigEx Control, Command and Signalling (CCS) Exhibition takes place on Tuesday

November 20, 2023

The annual [SigEx Control, Command and Signalling \(CCS\) Exhibition](#), now hosted by the Railway Industry Association (RIA), takes place on Tuesday (November 21). RIA has taken over hosting the event from Network Rail's Signalling Innovations Group.

RIA's SigEx is aimed at those working across supply chain, clients, and government organisations. SigEx offers a mix of formal conference activities and informal networking opportunities in the large exhibition area. RIA has secured an prestigious line-up of speakers ([which can be viewed here](#)) and is proud to announce the full event schedule running from 09:30-17:00. The event will be opened with keynote addresses from Martin Jones, Chief Engineer, Network Rail, [the remain speakers are available on the agenda page](#).

David Clarke, Technical Director Railway Industry Association said: "RIA is delighted to be working with senior industry stakeholders including Network Rail in our inaugural hosting of the annual SigEx control, command and signalling exhibition. The event is a great opportunity to bring together government organisations, clients and rail suppliers to share best practice and perspective on how to deliver a better railway."

James Dzimba, Chief Control, Command & Signalling Engineer, Network Rail: “I am delighted to give Network Rail’s support to this new RIA event which I hope will become a feature of the railway calendar. It creates a great opportunity for myself and my regional colleagues to meet suppliers, see the latest products and innovations and share the challenges we are trying to solve.”

David Shipman, Director and Principal Consultant, RailETC said: “After several years of involvement with the original SIG events, it’s great to now be working with RIA to bring back the very best elements of these, uniting suppliers and clients together in an atmosphere of innovation, sharing, and learning.”
