

Think Hire and Siemens Join Forces for a sustainable future

March 22, 2024

Think Hire, the UK's premier off-grid Energy as a Service provider, has announced its strategic partnership with Siemens, a significant leap forward in fostering sustainability and making substantial strides in carbon footprint reduction.

Think Hire secured a contract to supply relocatable renewable energy assets and lighting solutions throughout the UK.

Neil Richardson, Managing Director of **Think Hire** and Group Director of Think Energy Group: "We are thrilled to announce our new partnership with Siemens, a global leader in innovation and technology.

"This contract award is a testament to our commitment to excellence and our dedication to delivering cutting-edge solutions to our clients. Together with Siemens, we look forward to pushing the boundaries of what is possible and shaping the future of the industry.

"This collaboration marks the beginning of an exciting journey towards mutual success and ground-

breaking achievements.”

Paul Duncombe, Siemens Commodity Manager: “Siemens strive to be at the forefront of technology and sustainability innovations. With Think Hire we have found a partner that can help Siemens achieve these goals by providing cost-effective power solutions that dramatically reduce our projects’ CO2 emissions.”

Think Hire says it remains devoted to investing in innovation, ensuring progressive solutions that align with Siemens Mobility’s environmental objectives.

The company adds that this partnership marks a significant milestone in Think Hire’s journey and showcases both companies’ commitment to sustainability, innovation, and corporate responsibility
