

Trackwork incorporates TICS Rail Signalling business into brand

July 21, 2023

Trackwork is delighted to announce that TICS Rail Signalling will be incorporated into the Trackwork brand as it expands the Group's capabilities.

TICS Rail Signalling was acquired by Trackwork in 2017 and bringing it under the Trackwork name allows the company to present its complete range of multidisciplinary engineering services to customers.

Trackwork is a manufacturer of permanent way materials including sleepers, castings and S&C and combining signalling with our track installation and maintenance activities will allow it to deliver multidisciplinary projects, safely, on time and cost effectively.

For existing TICS customers it is important to stress this is business as usual with the management team and operations remaining unaffected.

A spokesperson said: "We have built on the core values of TICS over the last six years and will continue to provide an excellent service for our customers. Over the next months we will be rebranding vehicles, documents and changing email addresses. Please note that this is a rebranding and Trackwork Ltd

(company number 01271067) remains the legal trading entity.”

For a full list of the services Trackwork provides, visit the [Trackwork website](#).
